

School Wellness

The Board promotes healthy schools by supporting student wellness, including good nutrition and regular physical activity, as part of the total learning environment. Schools contribute to the basic health status of students by facilitating learning through the support and promotion of good nutrition and physical activity. Improved health optimizes performance potential and educational success as children who eat well-balanced meals and are physically active are more likely to be engaged and learn in the classroom and less likely to be absent.

Goals

To further the Board's beliefs stated above, the Board adopts the following goals.

Goal #1: The district will provide a comprehensive learning environment to promote the development and practice of lifelong wellness behaviors.

The entire school environment, not just the classroom, will be aligned with healthy school goals to positively influence a student's understanding, beliefs and habits and they related to comprehensive wellness, including good nutrition and regular physical activity. Such learning environments will teach students to use appropriate resources and tools to make informed and educated decisions about lifelong healthy eating habits and beneficial physical activity, in accordance with the district's academic standards for comprehensive health education and physical education.

Goal #2: The district will implement and promote nutrition education and proper dietary habits contributing to students' health status and academic performance.

Nutrition education will be in accordance with the district's academic standards for comprehensive health education. All foods and beverages sold or provided to students on the school campus during the school day shall meet or exceed the district's nutrition standards. All schools participating in the National School Lunch and/or School Breakfast Programs shall comply with state and federal rules or regulations regarding school meals competitive food service and the Smart Snacks in School nutrition standards.

Goal #3: The district will promote healthy nutrition choices to create and encourage a healthy learning environment.

In accordance with applicable federal law, schools participating in the National School Lunch and/or Breakfast Program shall comply with the Smart Snacks in School nutrition standards in the marketing of any foods or beverages sold to students during the school day.

Goal #4: The district will provide daily opportunities for students to engage in physical activity.

Physical activity will be included in a school's daily education program from grades pre-kindergarten through 12. Physical activity includes regular instructional physical education, in accordance with the district's academic standards for physical education, and opportunities throughout the school day, such as exercise programs, fitness breaks, recess, field trips that include physical activity and classroom activities that include physical activity.

Implementation and review

To help ensure each school's compliance with and implementation of this policy's goals, the Board designates the school principal, as the district's school wellness policy coordinator.

The district will establish and maintain a district-wide wellness advisory council. The council's purpose will be to monitor the implementation of this policy, evaluate the district's progress on this policy's goals, serve as a resource to schools (i.e. provide lists of healthy incentives, snacks, etc.) and periodically review and update this policy in accordance with federal law. The council will meet on a quarterly basis.

At least once every three years, the council shall assess this policy and its implementation, which shall include an assessment of each participating school's compliance and progress with this policy's goals. The council may recommend policy revisions for the Board's consideration after conducting its triennial assessment and/or as the council deems appropriate or necessary.

Reporting and recordkeeping

The results of the council's triennial assessments shall be made available to the public along with a copy of this policy.

The district shall retain records to document compliance with this policy, including but not limited to documentation concerning the council's triennial assessments.

Adopted: October 18, 2011

School Wellness (Implementing Objectives)

Goal #1. The district will provide a comprehensive learning environment to promote the development and practice of lifelong wellness behaviors.

The goal of providing a comprehensive learning environment will be accomplished by:

- The adoption of district academic standards for health and nutrition education that teaches students about the effects of nutrition and physical activity on their health.
- The provision of age appropriate and culturally sensitive instruction to students that teaches them lifelong healthy eating habits and a healthy level of physical activity.
- Encouraging activities that promote staff wellness.
- The availability of nutrition education in the school cafeteria as well as the classroom, with coordination between the district's nutrition services staff and teachers.
- Encouragement to teachers to integrate nutrition education into core curriculum areas such as math, science, social studies and language arts, as applicable.
- The availability of staff educational opportunities to inform them about nutrition and physical activity, including how to integrate these topics into their core instruction. These educational opportunities may include but not be limited to, the distribution of educational and informational materials and the arrangement of presentations and workshops that focus on nutritional value and healthy lifestyles, health assessments, fitness activities, and other appropriate nutrition and physical activity-related topics.

Goal #2. The district will implement and promote nutrition education and proper dietary habits contributing to students' health status and academic performance.

The goal of implementing and promoting nutrition education and proper dietary habits will be accomplished by:

- A requirement that all students have access to fresh fruits and vegetables during the school day.
- A requirement that all students have access to healthful food choices in appropriate portion sizes throughout the school day, including healthful meals in the school cafeteria with an adequate time to eat; healthful items in vending machines, and the encouragement of healthful items for fundraisers classroom celebrations and rewards.
- The adoption of rules specifying the time and place at which competitive foods may be sold on school property to encourage the selection of healthful food choices by students.
- An assurance that the school cafeteria is as pleasant an eating environment as possible, including displays of student art, plants, and natural light if possible.
- The encouragement of nonfood fundraisers such as flowers, gift-wrap, sporting events, and family fun runs.

- A requirement that all students have access to a school facility with a sufficient number of functioning water fountains in accordance with local building codes, or other means to provide students with sufficient water.

Goal #3. The district will promote healthy nutrition choices to create and encourage a healthy learning environment.

The goal of promoting healthy nutrition choices to create and encourage a health learning environment will be accomplished by:

- To the greatest extent feasible, the marketing of food and beverage products on the exterior of vending machines and through posters, menu boards and other equipment on the school campus will meet the Smart Snacks in Schools nutrition standards.
- Marketing shall encourage participation in school meal program

Goal #4. The district will provide daily opportunities for students to engage in physical activity.

The goal of providing daily opportunities for students to engage in physical activity will be accomplished by:

- A requirement that periods of physical activity be provided for elementary students in accordance with policy JLJ, Physical Activity consistent with requirements of state law.
- A requirement or encouragement that periods of physical activity be as follows: 60 minutes per day for elementary students; 240 minutes per day for middle and high school students; high school students receive one credit.
- Increased opportunities for physical activity during the school day through daily recess periods, elective physical education classes, walking programs and the integration of physical activity into the academic curriculum. An encouragement that secondary schools administer a health-related fitness assessment to students to help students determine their own level of fitness and create their own fitness goals and plans. Encourage brain breaks and mindfulness throughout the day.
- Encourage walking for student who attend PE without special clothing for physical activity.
- Discourage the use of withholding recess as a classroom practice in order to promote activity.
- The availability of health-promotion activities and incentives for students, parents and staff that encourage regular physical activity, such as speakers, recreational demonstrations, and walking clubs.
